Notes on Table DEC13_FTE1:

- The underlying population for this table covers all students on credit bearing courses who were active (not dormant or on a sabbatical) at the HESSES census date of 1 December 2013 and who have a record on the University's student records system (CamSIS). The table includes the following groups of students:
 - all incoming exchange and other visiting students;
 - all outgoing exchange and other visiting students;
 - matriculated (students who are members of a Cambridge College) and non-matriculated students;
 - postgraduate students writing up/under examination.
- The tables exclude new entrants who withdrew from their course within two weeks of starting their studies.
- The load is calculated using standard HESA methodology:
 - the load for full-time students who do not intermit, withdraw or change their mode of study throughout the HESA reporting period is equated to 1 FTE;
 - the load for students intermitting or withdrawing at some point during the HESA reporting period is adjusted in proportion to the amount of time they are inactive. E.g. the load for a full-time undergraduate intermitting for one of three terms is 0.67 FTE;
 - the load for students on courses where one year of study is split between two HESA reporting periods is divided between two HESA returns. E.g. the load for student on a one-year M.Phil. course that starts in October 2013 and finishes in September 2014 is 0.89 FTE in the 2013-14 HESA return and 0.11 FTE in the 2014-15 HESA return;
 - the load for part-time students is calculated as a proportion of an equivalent full-time course;
 - the load for postgraduate students writing up/under examination is 0.1 FTE if they are writing up for the whole reporting period or a proportion of 0.1 FTE if they are writing up for part of the reporting period.
- The "Standard provision" category includes all students returned in the HESA student submission. The "Distance learning provision" category includes part-time students returned in the HESA Aggregate Offshore submission. A student is included in the HESA Aggregate Offshore submission if they are part-time, non-UK domiciled and are expected to spend less than eight consecutive course weeks in the UK during their entire programme.
- The load for the students in the first two years of the Graduate course in Medicine is split 67%:33% between the School of the Biological Sciences and the School of Clinical Medicine. The load for all other students on this course is attributed 100% to the School of Clinical Medicine.
- The undergraduate load recorded in CamSIS as allocated to the Natural Science Tripos Committee is re-allocated to the School of Physical Sciences (50%) and the School of Biological Sciences (50%).
- The undergraduate load recorded in CamSIS as allocated to the Faculty of Mathematics is re-allocated to the Department of Applied Mathematics and Theoretical Physics (50%) and the Department of Pure Mathematics and Mathematical Statistics (50%).
- 8% of load for the first year students on the clinical part of the standard Medicine course is allocated to Department of Pathology to match treatment in the Resource Allocation Model (RAM).

DEC13_FTE2: Full-time equivalent (FTE) student load for HESA session population on 1 December 2013 by School/Faculty/Department by level of study and fee eligibility

Notes on Table DEC13_FTE2:

- This table presents data for the students in the HESA session population, which excludes the following groups of students:
 - students who are inactive (dormant or on a sabbatical) for the whole of the HESA reporting period (1 August to 31 July);
 - all incoming exchange and other visiting students;
 - all part-time non-UK domiciled students returned in the HESA Aggregate Offshore submission;
 - new entrants who withdrew from their course within two weeks of starting their studies.
- This table includes both matriculated (students who are members of a Cambridge college) and non-matriculated students.
- The load is calculated using standard HESA methodology (see note 3 for Table DEC13_FTE1 for more details).
- The load for the students in the first two years of the Graduate course in Medicine is split 67%:33% between the School of the Biological Sciences and the School of Clinical Medicine. The load for all other students on this course is attributed 100% to the School of Clinical Medicine.
- The undergraduate load recorded in CamSIS as allocated to the Natural Science Tripos Committee is re-allocated to the School of Physical Sciences (50%) and the School of Biological Sciences (50%).
- The undergraduate load recorded in CamSIS as allocated to the Faculty of Mathematics is re-allocated to the Department of Applied Mathematics and Theoretical Physics (50%) and the Department of Pure Mathematics and Mathematical Statistics (50%).
- 8% of load for the first year students on the clinical part of the standard Medicine course is allocated to Department of Pathology to match treatment in the Resource Allocation Model (RAM).
- Islands students are included in the Overseas fee eligibility category.

DEC13_FTE3: Full-time equivalent (FTE) student load for matriculated students present in Cambridge on 1 December 2013 by School/Faculty/Department by level of study and fee eligibility

Notes on Table DEC13_FTE3:

- The underlying population for this table covers matriculated students present in Cambridge on the HESES census date of 1 December 2013. The table excludes the following groups of students:
 - non-matriculated students, e.g. students who are not members of a Cambridge college;
 - students who are inactive (dormant or on a sabbatical) for the whole of the HESA reporting period (1 August to 31 July);
 - all outgoing exchange and other outgoing students, including postgraduate students participating in NIH, Howard Hughes and A*STAR programmes;
 - all part-time non-UK domiciled students returned in the HESA Aggregate Offshore submission;
 - new entrants who withdrew from their course within two weeks of starting their studies.
- The load is calculated using standard HESA methodology (see note 3 for Table DEC13_FTE1 for more details) and then further adjusted for the postgraduate students who are given permission to work away for a portion of the academic year. Postgraduate students who are given permission to work away for the whole year are excluded as outgoing students.
- The load for the students in the first two years of the Graduate course in Medicine is split 67%:33% between the School of the Biological Sciences and the School of Clinical Medicine. The load for all other students on this course is attributed 100% to the School of Clinical Medicine.
- The undergraduate load recorded in CamSIS as allocated to the Natural Science Tripos Committee is re-allocated to the School of Physical Sciences (50%) and the School of Biological Sciences (50%).
- The undergraduate load recorded in CamSIS as allocated to the Faculty of Mathematics is re-allocated to the Department of Applied Mathematics and Theoretical Physics (50%) and the Department of Pure Mathematics and Mathematical Statistics (50%).
- 8% of load for the first year students on the clinical part of the standard Medicine course is allocated to Department of Pathology to match treatment in the Resource Allocation Model (RAM).
- Islands students are included in the Overseas fee eligibility category.

DEC13_FTE4a: Full-time equivalent (FTE) student load for matriculated fee-paying undergraduate students on 1 December 2013 by School/Faculty/Department by fee eligibility and year of entry

Notes on Table 1213_FTE4a:

- The underlying population for this table covers fee-paying matriculated undergraduate students. The table excludes the following groups of students:
 - non-matriculated students, e.g. students who are not members of a Cambridge College;
 - students who are inactive (dormant or on a sabbatical) for the whole of the HESA reporting period;
 - all incoming exchange students and outgoing Home/EU Erasmus exchange students as they pay no fees;
 - new entrants who withdraw from their course within two weeks of starting their studies.
- The load is calculated using standard HESA methodology (see note 3 for Table DEC13_FTE1 for more details). The load for the outgoing students on the compulsory year abroad who are not Home/EU students on the Erasmus exchange is further adjusted to 0.5 FTE to reflect their liability to pay half rate fee.

DEC13_FTE4b: Full-time equivalent (FTE) student load for matriculated fee-paying postgraduate students on 1 December 2013 by School/Faculty/Department by fee eligibility and year of entry

Notes on Table DEC13_FTE4b:

1. The underlying population for this table covers fee-paying matriculated postgraduate students. The table excludes the following groups of students:

- non-matriculated students, e.g. students who are not members of a Cambridge college;
- students who are inactive (dormant or on a sabbatical) for the whole of the HESA reporting period (1 August to 31 July);
- incoming postgraduate Erasmus exchange students as they pay no fees;
- postgraduate students with study agreements indicating they were given permission to work away with no fees payable for the whole academic year;
- postgraduate students writing up/under examination;
- new entrants who withdrew from their course within two weeks of starting their studies.

2. The load is calculated using standard HESA methodology (see note 3 for Table DEC13_FTE1 for more details). The load for the for the postgraduate students with study agreements indicating they were given permission to work away with no fees payable for one or two terms is further adjusted.

DEC13_FTE5: Forecast of 2014-15 full-time equivalent (FTE) student load for HEFCE-fundable UG and PGT students based on 2013-14 HESES population on 1 December 2013 by School/Faculty/Department by level of study and fee regime

Notes on Table DEC13_FTE5:

- This table presents the forecast full-time equivalent (FTE) student load for 2014-15 HEFCE-fundable undergraduate and postgraduate students as reported in the Table 7 of HESES 2013. The table 7 forecast forms the basis of the provisional teaching funding for 2014-15. The forecast is based on the 2013-14 data for the students in the HESES countable population, which excludes the following groups of students:
 - students who are inactive (dormant or on a sabbatical) for the whole year between the anniversaries of their starting date;
 - postgraduate students who are writing up/under examination for the whole year between the anniversaries of their starting date.
 - all incoming exchange and other visiting students;
 - students who have less than 0.03 FTE for the whole academic year;
 - students who withdrew before the HESES census date of 1 December.
 - Home/EU undergraduate and postgraduate taught students aiming for an equal or lower qualification (ELQ) than the one they already hold, as they are not HEFCE-fundable.
- The load is calculated using HESES methodology:
 - the load for all full-time students is equated to 1 FTE;
 - the load for students on a sandwich year out (i.e. students who spend at least one term on a working placement during their year abroad) is equated to 0.5 FTE;
 - the load for part-time students is calculated as a proportion of an equivalent full-time course;
 - the load for students on courses where one year of study is split between two HESA reporting periods is returned for the first reporting period only. E.g. the load for a student on a one-year M.Phil. course that starts in October 2013 and finishes in September 2014 is reported as 1 FTE in the HESES 2013 and the 2013-14 HESA-HESES recreation and no load is returned for the student in the following year.
 - the load for students who did not complete their year of study is returned as a negative value. In a given academic year the students are counted as non-completion if they fail to undergo the final assessment of any of the modules (compulsory examination papers in Cambridge terms) that they intended to complete in a year of study, within thirteen calendar months from the start of that year of study. Forecast of load for students who will not complete is based on 2012-13 actuals data and pro-rated across the departments within the same Price Group to match the numbers returned in the Table 7 of HESES 2013.
- In the HESES return Home/EU undergraduate and postgraduate taught students are classed as "Non-fundable" if they are aiming for an equal or lower qualification (ELQ) than one they already hold. All Home/EU postgraduate research students are classed as "Non-fundable" in HESES.
- Forecast of undergraduate load is based on the assumption that 2014-15 numbers will remain at the same level as 2013-14 numbers apart from the anticipated reduction in new regime students in the third year of study to reflect the significant decrease in HEFCE-fundable entrants between 2011-12 and 2012-13 academic years.
- Forecast of postgraduate load for incorporates the 2014-15 planned student numbers as submitted by the Schools in the 2013 Planning Round.
- The load for the students in the first two years of the Graduate course in Medicine is split 67%:33% between the School of the Biological Sciences and the School of Clinical Medicine. The load for all other students on this course is attributed 100% to the School of Clinical Medicine.
- The undergraduate load recorded in CamSIS as allocated to the Natural Science Tripos Committee is re-allocated to the School of Physical Sciences (50%) and the School of Biological Sciences (50%).
- The undergraduate load recorded in CamSIS as allocated to the Faculty of Mathematics is re-allocated to the Department of Applied Mathematics and Theoretical Physics (50%) and the Department of Pure Mathematics and Mathematical Statistics (50%).
- 8% of load for the first year students on the clinical part of the standard Medicine course is allocated to Department of Pathology to match treatment in the Resource Allocation Model (RAM).

DEC13_FTE6: Full-time equivalent (FTE) student load for PGR students on 1 December 2013 by School/Faculty/Department by level of study, fundability status and fee eligibility

Notes on Table DEC13_FTE6:

- The underlying population for this table covers postgraduate research students active on the HESES census date of 1 December 2013. The table excludes the following groups of PGR students:
 - students who are inactive (dormant or on a sabbatical) for the whole year between the anniversaries of their starting date;
 - postgraduate students who are writing up/under examination for the whole year between the anniversaries of their starting date;
 - all incoming exchange and other visiting students;
 - all part-time non-UK domiciled students returned in the HESA Aggregate Offshore submission;
 - new entrants who withdrew from their course within two weeks of starting their studies.
- This table includes both matriculated (students who are members of a Cambridge college) and non-matriculated students.
- The load is calculated using standard HESA methodology (see note 3 for Table DEC13_FTE1 for more details).
- The level of study reported for postgraduate research degrees is as follows:
 - Masters level: M.Litt., M.Sc., M.Phil., M.Res., M.St., M.Ed. and various postgraduate-level Diplomas;
 - Doctorate level: Ph.D., Eng.D., Ed.D., M.D., probationary Ph.D. and C.P.G.S.
- In the HESA return Home/EU postgraduate research students are classed as "Fundable" if they are actively supervised by an academic member of staff employed by a higher education institution in England. Data in the "Fundable" column in this table represent the FTE for fundable students for the 2013-14 academic year and is different from FTE calculations used by HEFCE to derive research development programme (RDP) part of QR funding, which links several years' sets of data.

Total	11,896.65	1,922.92	4,993.53	18,813.09

Notes on Table DEC13_FTE7:

- This table presents data for the students in the HESA session population, which excludes the following groups of students:
 - students who are inactive (dormant or on a sabbatical) for the whole of the HESA reporting period (1 August to 31 July);
 - all incoming exchange and other visiting students;
 - all part-time non-UK domiciled students returned in the HESA Aggregate Offshore submission.
 - new entrants who withdrew from their course within two weeks of starting their studies.
- This table includes both matriculated (students who are members of a Cambridge College) and non-matriculated students.
- Students who do not have a record on the University's student record system (CamSIS) are not included, e.g. students following executive courses at the Cambridge Programme for Sustainability Leadership.
- The load is calculated using HESA student/staff ratio (SSR) methodology, which itself is based on the standard HESA methodology (see note 3 for Table DEC13_FTE1 for detailed description) but with two further adjustments:
 - the load for students who spend the whole academic year abroad on a working placement is adjusted to 0.5 FTE;
 - the load for students on courses with collaborative provision is adjusted to reflect the proportion of collaboration contributed by the University of Cambridge. E.g. the load for a student on a course with collaborative provision where the University of Cambridge delivers 10% of the course is adjusted from 1 FTE to 0.1 FTE.
